Exhibit:
- K. Smith, J. DeRouen, **R. Benton**, S. Katragadda, and S. Virani, Lecture/Display, "For sale: grazing pasture, under water", by UL Lafayette Coastal Community Resilience Studio and Center for Advanced Computer Studies, at the UL Lafayette ArTech Fusion, Lafayette, Louisiana, USA. (March 14, 2014). In the spirit of the legend of Ernest Hemingway's 6 word short story, this project places terse and poignant narratives of land use and loss, restoration and adaptation, attachment to community, resilience, and personal identity along the Chenier Plain of coastal Louisiana. The stories are stored as points on a web-based map; with the stories appearing and disappearing on the map as the user moves the mouse over the points. The system was shown for 3 ½ hours, while a short audio/visual presentation was given (10 minutes).
